

SILENT-YACHTS

Dear friends of SILENT-YACHTS,

thank you so much for your interest in our solar powered catamarans and a special "Hello and Thank You" to the visitors who took the chance to step on board our newest SILENT 55 at the YACHTING FESTIVAL CANNES.

Hundreds of visitors from all over the world came on board, enjoyed a drink (or two) with us and were surprised by the concept and the luxury the SILENT 55 had to offer. At our press- and media event the boat was packed with over 40 top-class journalists and several TV-stations as well as online media outlets who brought their cameras to report about SILENT-YACHTS. The outcome was excellent TV, online and print coverage, e.g. in magazines like Robb Report, Figaro Nautisme, 2LUXURY2, Multipower News etc. [Here](#) you can find a few [images](#) from the SILENT 55 at the YACHTING FESTIVAL CANNES.

After the busy but successful YACHTING FESTIVAL CANNES we set "solar sails" heading for the island of Mallorca with an average speed of seven Knots. On the 350 NM voyage a lot of sunshine enabled us to continually charge our batteries and we had to use the generator only for a short time while sailing during the night. We all enjoyed the cruise and as a highlight we caught a tuna which was a great addition to the menu of our chef.

Our SILENT 55 will be available for sea-trials in Mallorca until end of October. So if you are interested in testing this solar-powered luxury catamaran, we warmly invite you to visit us and to have a wonderful "SILENT" day at the Balearic islands. Please contact us via e-mail and we will arrange an appointment - we look forward to see you on the SILENT 55.

With warmest regards

Michael Köhler and the SILENT-YACHTS Team
