Dear customers and friends of SILENT-YACHTS,

we hope you have started well into the new year 2019.

SILENT-YACHTS is supporting a student writing his master thesis about the future of solar-electric yachting. As part of this thesis, the student is conducting a survey. By participating, you will support him - and the sustainable and environmentally friendly development of the maritime industry. We would really appreciate if you would take 3-5 minutes of your valuable time to answer a few simple questions. You can enter the survey by clicking on the picture above or through this link:

<https://surv.es/8aTdFGzWLQqgd8mn5>

Thank you in advance for participating!

With warmest regards,
Michael Koehler and the SILENT-YACHTS team.

P.S.: We look forward to see you soon. Next chance would be at the maritime trade fair "**boot Düsseldorf**" (Germany) from the 19.01.2018 - 27.01.2018. You are kindly invited to stop by in **hall 15 at booth A60!**
