

SILENT-YACHTS

Dear Friends of SILENT-YACHTS,

We hope that this email finds you well and that you and your family are staying safe during these days. Unfortunately, life does not come without its challenges along the way. While this affects all of us in different ways, we must help each other to get through such periods together as supportive human beings.

As a collective team, none of us certainly wishes to benefit from unprecedented circumstances such as this particular one. Striving towards a vision of independent, sustainable and self sufficient sailing, we still feel it is our duty to mention that the concept behind every SILENT-YACHT is not only beneficial when exploring the oceans, but also helpful during difficult scenarios such as the present situation.

Hence, as we are all doing our personal best to cope with the circumstances, we sincerely hope so are you.

PRODUCTION

The health of all our workers at the shipyards and their families remains the top priority for us.

While we expect to have certain delays regarding the production of some of our models, we are sure that we can quickly return to our full production capacities in all our facilities once the situation is safe and under control.

SILENT-YACHTS HEADQUARTERS

There is no risk of infection as we currently all work from our individual homes with daily video conferences. Our entire team is healthy and working hard to support the production, current clients and future owners. We are steadily improving existing models and developing new layouts and designs. In fact, we are thrilled to inform you that there are some very exciting announcements in the pipeline for 2020!

CONCLUSION

We are aware of the challenges this situation is bringing along day by day, but are confident that things will be back to normal soon. In case you have any questions or inquires, we of course remain at your disposal. Hereby, we would like to take the opportunity to say thank you for your unchecked interest and requests regarding our models over the past days and weeks!

However, the most important thing is that you please take care of yourself and your loved ones. Listen to the advice of qualified experts and avoid unnecessary risks - we will get through this together as a collective!

Yours truly,

Michael, Heike & the SILENT Crew.
